Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Dear fcc im wendell a tracfone customer and i can not afford a contract phone because the price is to high i have been with tracfone a long time all the fees u all got on the phone bills are to high already we need to keep tracfone like it is i think u all or already making a killing like it is you are already tring to stop the poor people from haveing a cell phone we had it going prettygood the way it was please tell me more about this please my e mail address is wendell@inu.net

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

wendell
